**I'm writing to apply for the above vacancy in your company.**

I have achieved a lot, want to do much more and have ambitious plans for the future.

I consider myself a socially intelligent; individual who is able to do any demanding role that requires proactive individuals who are committed to work hard, my in depth understanding of mathematics and physical science it means I excel in solving the problems.

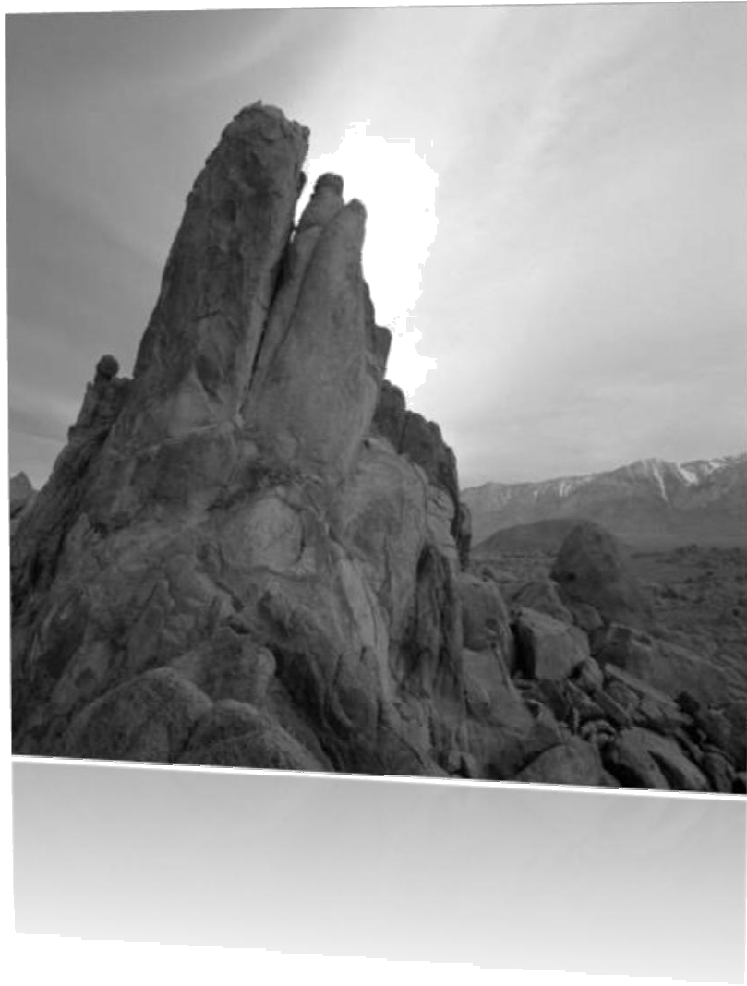

In my current role I am 3rd year student doing one subject and I will finish it by June this year. The course that I'm doing is surveying which includes GIS (Geographical Information Sciences) that I think your company will benefit to it.

On a personal level I possess a dynamic work ethic along with an ability to think outside the box and to quickly pick up new skills. I think commercially at all times and embrace positive change and I'm transparent and open with others. I consider myself to be a confident individual who works hard all the time.

In closing, I would like to thank you sincerely for taking the time to read my application, and I very much look forward to an opportunity to speak to you in more detail regarding this position. In this regard please feel free to contact me to arrange an interview at your convenience.

Yours Faithfully

## Employment

In 2015 did an internship at City of Cape Town, based on surveying and GIS for a year. For 1<sup>st</sup> Semester I did training on GIS, and I was doing capturing, creating maps for the clients and also involved in GIS projects, e.g. informal settlements and using ArcGIS 10.2.1 software. Last Semester I did survey work e.g. levelling, photo controls for Aerial photographs, engineering survey e.g. topographical survey, traverse triangulation for networks and searching town survey mark and for downloading work and we used Model Maker software.

Currently I'm a 3<sup>rd</sup> year student, doing one subject which is Spatial Data Acquisition and I will be completed with it in June this year.
