

LAND SURVEYOR

An established firm of Professional Land Surveyors currently has permanent full-time vacancies in their Cape Town (CBD) office for dynamic individuals who will form part of their technical team.

The responsibilities of the job incumbent include:

- Perform duties related to land surveying for identifying land ownership and property boundaries.
- Conduct records management activities and perform historical and legal land ownership research.
- Develop and inspect land surveying project contracts.
- Support field measurement and layout.
- Conduct standard calculations to identify areas, elevation and volumes of field survey notes.
- Conduct basic calculations using field note data.
- Read, utilize and interpret design drawings and topographical maps.
- Study, learn and interpret CAD computer applications.
- Provide consistent and superior quality documents for survey, design and building projects for clients.
- Perform as cadastral issue matter expert as team member.
- Liaise with team and clients regarding projects.
- General drawing office administration.

The ideal job incumbent must adhere to the following personal specifications:

- BSc-Survey/Geomatics Degree
- Registered Professional Geomatician/Land Surveyor or
- Registered Graduate Geomatician/Land Surveyor in training
- Registered with the South African Geomatics Council (SAGC)
- Above average computer skills and computer literacy (good working knowledge of MS Office, CAD Software, AlleyCAD (preferable) and AutoCAD programs)
- Detail orientated
- Excellent communication (English) and interpersonal skills
- Good report writing skills.
