GOALS

My love for the outdoors and numbers is what attracted me to surveying in the first place, but ever since I had practical experience, I fell in love with this occupation. And my goal has since been to become the best surveyor that I can be, wherever I work at. I'm a very hard working and dedicated person, and when I love something as much as I like surveying, that is all that I want to do. I'm also a loyal and honest person, and in the work that I do, I will always give my best and do the work to the best of my ability.

RELEVANT EXPERIENCE

Work experience:

Did my one-year practical studies at Gert Saaiman in Kimberley (2019). For 7 weeks Mr. Saaiman was off work with a back operation, and I had to do all the work in that period. I learned a lot in that time with all the responsibilities.

During my Practical year I also worked with Jan Gravainis, who is the Land Surveyor in Kimberley. He helped with a few projects that he had.

I also worked with Bruce Barsdorff, who is the Land Surveyor in Vryheid, whenever I was home in Vryheid.

Other work experience:

Worked in America for three years, on a farm, doing commercial harvesting. I learned a lot about hard work and dedication there and how to be efficient in every working environment. And how to work in extreme working- and weather conditions.
