TO WHOM IT MAY CONCERN

EXPERIENTIAL LEARNING: NATIONAL DIPLOMA SURVEYING

NAME: TL TSHEHLA

STUDENT NO: 219846371

The diploma course in Surveying consists of a total period of three years, two years of theoretical training at the Tshwane University of Technology and one year practical. If the student does not complete his/her experiential learning (practical), he/she cannot obtain his/her diploma.

It is preferable that the student completes one full year of experiential learning after the first year of theory (S1 & S2) at the University.

When the student registers for Experiential Learning (practical) he/she receives a Logbook via myTUTOR that he/she has to keep up to date. There are also monthly reports that have to be completed by the student and the mentor (person responsible for the student's guidance) and sent to the Tshwane University of Technology. At the end of every semester the student has to hand in the completed logbook at the Tshwane University of Technology for evaluation. It is therefore essential that the student work under the guidance of a qualified Surveying. During this period the student and mentor will be visited at least once to monitor the student's progress.

Experiential Learning is regarded as a subject and the student has to register for it the same way as all the other subjects. The registration fees will be determined by the Registration Department and will be adjusted from time to time. It is important to know that the student has to register for the subject every semester. During this period the student is not allowed to register for fulltime courses that will require the student to attend lectures. The student is however allowed to register for only one subject. During this period the student and the mentor will be visited at least once to monitor his/her progress.

Attached is an example of the activities during a student's training period.

I hope the information is satisfactory. If there is anything else you would like to know, please contact me at the following numbers below:

Regards,
