Madam

REGISTRATION AS SURVEY TECHNICIAN (ENGINEERING)

With reference to your application received at this office on **13 May 2015**, I wish to inform you that I have registered you as a SURVEY TECHNICIAN (Engineering), with effect from that date in the registration category "**Local Government**" (LGOV).

Your registration number is **ST 1787** and a certificate bearing this number will be forwarded to you in due course.

Your registered and your postal address has been recorded as that used at the top of this letter. **It is most important that the Council be advised in writing, of any change in address and telephone numbers.** In dealing with registered addresses the Council has delegated certain powers to the Registrar; hence the Council does not look at the registered address of the registered person. This letter must therefore not be construed as containing the Council's approval, nor its disapproval, of your registered address.

Attached please find receipt number 14259 in respect of R550-00 application fee (VAT Inclusive).

Enclosed is a copy of Act 19 of 2013 (Geomatics Profession Act), which supersedes Act 40 of 1984.

With regard to the practising of your calling of Survey Technician I seriously recommend that you study Chapter VIII of the Rules, which deal with improper conduct.

Your attention is also drawn to section 22(4)(b)(ii) of Act 40 of 1984, regarding practising under supervision.

"22. Registration of Technical Surveyors

(4) Any person who has paid the annual fees shall be entitled-

(b) in the case of a survey technician-

(viii) to carry on his calling in any part of the Republic but only under the personal supervision of such professional surveyor, surveyor or other suitably qualified person as may be prescribed. Provided that the provisions of this subparagraph relating to personal supervision shall, subject to such conditions as the council may determine, not apply in respect of any person who, within two years or such further period as the Minister, after consultation with the council, may determine by notice in the Gazette, from the commencement of this Act, submits to the council proof that he has, unsupervised, performed for such period as the council may deem sufficient, practical work which in the opinion of the council is of sufficient variety and of a satisfactory nature and standard;"

Yours faithfully

J E VERMAAK (Mrs)
